Comments

“ Hubert was my neighbor since childhood. We were never really close, but we knew some of the same people as kids, and would always see each other around Kailua. Those were good times and I will always remember them fondly.

Hubert was a part of all that. That's why it's sad to learn that he's gone, because with his passing also goes a part of that era, lost forever.

I know he had a lot of health problems, but I would not have known about his passing if I had not heard the procession of cars, honking their horns and burning-out in front of his old house where I think his stepmother lives now, And given his relationship with her, I strongly suspect was may have been one of his last requests.

Ha ha, That was great; an awesome send-off for someone who was treated so badly. I'll bet he had a good laugh over THAT. Thanks to everyone who made it happen.

I hope he's is in a better place now, surrounded by the light and love.

Where ever you are, Hubert, i wish you all the best. Aloha.
